

# Jack and the Beanstalk Lever Instructions

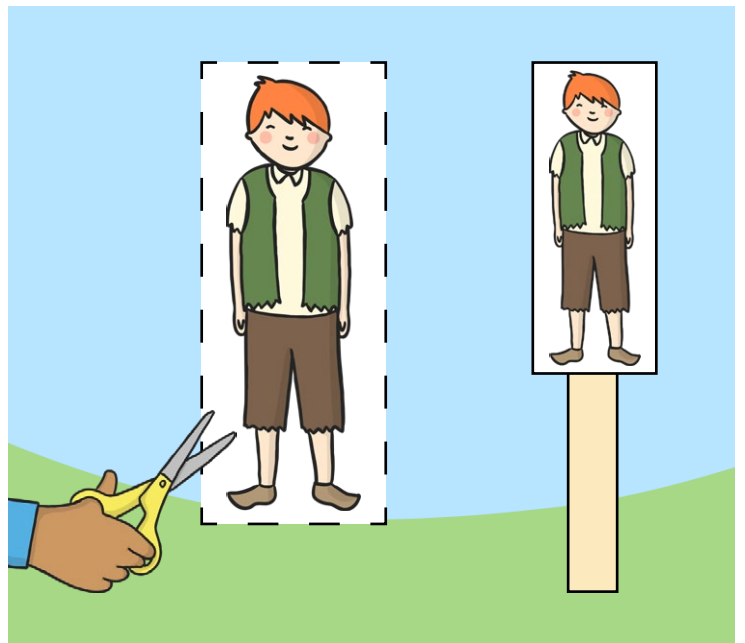

## Step 1

Decide how long you want your lever to be.

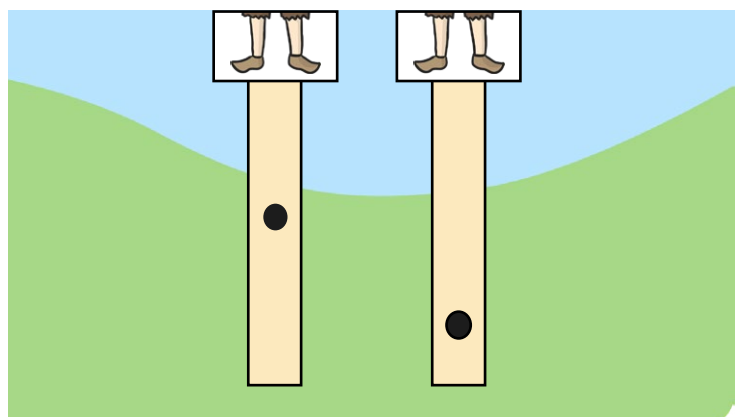

## Step 2

Cut out the picture of Jack and stick it onto the end of the lever.

## Step 3

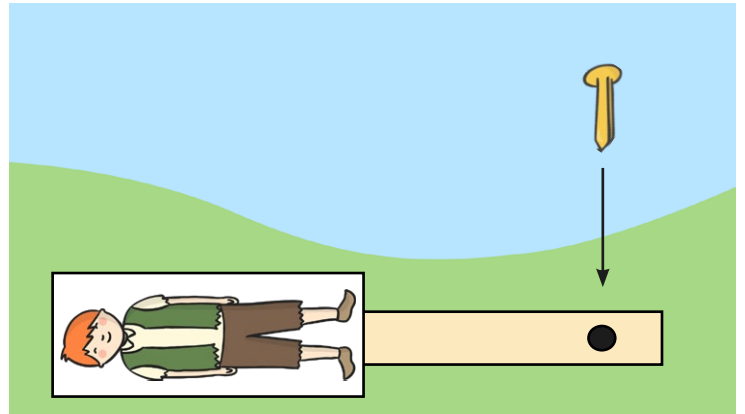

Decide where you want to place your pivot.

# Jack and the Beanstalk Lever Instructions

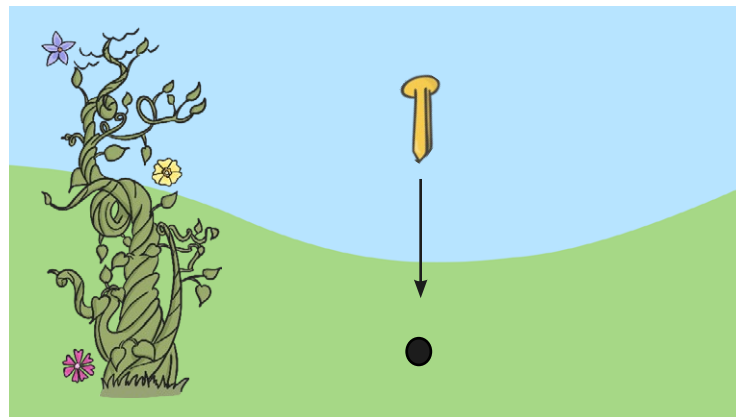

## Step 4

Place sticky tack behind the place you want to make a hole. Make a hole in the lever.

## Step 5

Place sticky tack behind the place you want to make a hole. Make a hole in the background.

## Step 6

To assemble, push the split pin through the lever and background and open up the ends at the back.

Check that the lever works; you might need to move the pivot.
